SUMMARY

I'm a Computer Engineering student with a strong background in Java and hands-on experience with Kotlin and Flutter projects. I'm working towards becoming a backend developer and am currently learning .NET. I love coding, enjoy picking up new technologies, and thrive on solving challenging problems using SOLID principles to build efficient, scalable software.

WORK EXPERIENCE

Frontend Developer Intern   **July 2023 - August 2023**

Mavi Arge │ Antalya,Türkiye

- Created and implemented user interface pages using Flutter.
- Utilized Git for version control and Docker for containerization.
- Gained valuable professional experience in a real-world development setting.

EDUCATION

Bachelor of Science in Computer Engineering   **September 2020 - Present**

Akdeniz University │ Antalya, Türkiye

PROJECTS

Restaurant Rating App │ FoodLig

Restaurant rating app to help users rate and find top-rated restaurants in their city. Contributed to frontend development using Flutter as part of a team. Code available on my GitHub.

Restaurant Founder │ Where To Eat?

Restaurant finder app to help users locate nearby restaurants. Developed independently using Kotlin with Firebase Auth and Google Maps API integration. Code available on my GitHub.
